dark rum, campari, demerara, pineapple, lime

**made with coconut milk*

CLARIFIED MILK PUNCH

What is it?

Centuries old technique used to strip the edges from rougher spirits

Is there milk in the cocktail?

No, but milk aids in the clarification process when it interacts with citrus. Milk curds are filtered out of the spirit, but the whey proteins that are dissolved in the liquid stay behind.

Why clarify?

The resulting drink has a silken mouthfeel and a smoother rounded flavor, altering familiar classics to be experienced in a new way.
