A large, dark-framed window or glass door is open, revealing a white bathtub inside. The interior also shows a bed with light-colored linens and a round mirror on the wall. The surrounding forest is dense with various types of trees and vibrant green foliage, including large palm fronds in the foreground. The lighting is soft and filtered through the canopy.

THE RAINFOREST SPA

In the middle of the Rainforest, at the bottom of the Petit Piton, a stream runs within the Spa that creates a true location to rejuvenate, relax, and reset.

Our treatment rooms are unique treehouses built on stilts and perched high above the ground. You can choose one of our couple's rooms to come with your significant other and indulge together or be in one of our single rooms for pure relaxation.

Harnessing the nourishing ingredients of nearby volcanic springs and fertile cocoa plantations, the Rainforest Spa offers a range of signature treatments including bamboo massage, pink salt stone therapies, body wraps and scrubs, and much more.

Tata Harper, a pioneer in natural luxury skincare, is our featured brand which gets extreme results without a drop of synthetic chemicals. #greenyourbeautyroutine
