The only luxurious fashion brand in hair cosmetics. As part of the prestigious fashion house, Balmain Paris Hair Couture comes with 50 years of experience in combining runway trends and hairstylists' needs. All products are enriched with silk protein and argan elixir. These two powerful ingredients revitalize and reinvigorate your hair by giving it elasticity, softness and shine as well as by hydrating it sufficiently.

These luxurious products are an absolute must have in every woman and man's toiletry bag and they are divided into categories for care and styling.

Balmain Paris Hair Couture all come with a distinctive Balmain perfume that can also be bought as a separate product.

In addition to hair care and styling products, Balmain offers a wide range of styling tools, luxury accessories, extensions and wigs, as well as gift sets.
